High Temperature Masking Tape - No.230

High quality crepe paper coated with natural rubber-based adhesive. Exhibit good tack and cohesion property even in high temperature up to 150 degrees Celsius. There is no residue left on the surface when removed.

Features

- High quality crepe paper coated with natural rubber-based adhesive.
- Clean removal; no adhesive residue left on surface even after brief exposure to elevated temperature.
- Heat resistance up to 150 degrees Celsius for 1 hour.

Applications

- Masking applications which require brief exposure to high temperature.
- Suitable for automotive and electronic industry, particularly for usage of bandoleering, electroplating, and soldering.

Code No.	Adhesive Type	Thickness	Length	Core Size
230	Rubber Solvent Based	135 μ \pm 10%	54 M	3 inches
