NEW PRODUCT

Carry Handle Tape

Carry handle tape is made from a high-quality PET film that will not lose shape under load. A multi-purpose handle that makes it easier to carry bulky or heavy items. The tape is coated with a strong natural rubber adhesive, can be used across a range of temperatures, and can support a maximum weight of up to 10kg. The carry handle tape may also help to reduce the use of plastic bags.

Properties

- Made from high strength Polyethylene Terephthalate (PET) film. Maintains a higher tensile strength than BOPP film and resists tearing.
- High performance Natural rubber adhesive which performs well in high or low temperatures and displays good moisture resistance.
- Sticks well on a variety of surfaces, including cardboard and strong plastic film.
- Provides convenience when holding large or heavy items.
- Able to support a maximum weight of 10 kg.
- Size: 24 mm. x 43 cm., 25 and 200 pieces per roll.

Applications

- For added convenience when carrying large or heavy items.
- Reduce the reliance on plastic bags, simply attach the handle to the item that you need to carry.
