NEW PRODUCT

Bio-degradable Tape

Environmentally friendly tape that maintains a very modern look. Made from a premium grade of cellulose film that is safer for the environment than traditional OPP (plastic) film. Certified to breakdown by over 99% in compost conditions. Coated with natural rubber adhesive for superior adhesion and resistance to leaving residue after removal from surfaces. Can be easily be torn by hand and is suitable for the office, industrial work that requires a delicate touch and is the perfect choice for an environmentally friendly solution.

Properties

- Made from a premium grade cellulose film – meaning faster biodegradability.
- Simple to use and can be easily torn by hand.
- Natural rubber adhesive ensures a secure seal every time.
- The tape core and carton are made from 100% recycled paper.

Applications

- Perfect for the environmentally friendly office
- For wrapping of delicate items, including gifts
- Sticks well to most surfaces
- Excellent choice for environmentally friendly packaging
