Bio-degradable Packaging Tape

Our biodegradable clear tape is made from a premium grade of Cellulose, with the films raw materials being sourced from sustainably harvested timber plantations. The tape is rated to be over 99% compostable and is a complete departure from your traditional clear adhesive tape. It can easily be torn by hand and is slightly yellow in colour, due to the natural rubber adhesive. The tapes core and packaging are made from recycled cardboard.

Properties

- Made from a premium grade cellulose film.
- Can be easily torn by hand, without the need for a dispenser.
- Natural Rubber adhesive ensures a secure seal every time.
- The tape core and carton are made from 100% recycled paper.
- The words "Biodegradable / Plant-based Cellulose Tape" are highlighted on the packaging.

Applications

- Excellent for medium to heavy-duty carton sealing.
- For packaging that requires an Environmentally Friendly solution.

Brand	Adhesive Type	Thickness	Length	Core Size
LOUIS Green	Natural Rubber	46µm ± 10%	20Y	3 Inches
